

Mr Chris Miles
Hutton Community Fellowship

02/06/2021

Dear Chris

I am writing to update you on the progress of Crossdykes Wind Farm as we are now able to provide a precise timetable for the commissioning of the site and for implementing the resulting Community Investment payments.

I am delighted to be able to share with you that Crossdykes was commissioned on **31st May 2021** and so the wind farm commenced generating Community Investment monies from that date. We will therefore be able to make the first Community Investment payment on **1st September 21** and payments will continue, quarterly in arrears, thereafter.

Muirhall Energy understands that Hutton Community Fellowship may have made some decisions and commitments predicated on an initial payment date of **1st June 21**. To acknowledge this and to help support any plans which may have been put in place, we have established a further Initial Investment Fund of **£25,000** which will be open for applications, up to a maximum of **£2,500** per application, with immediate effect. Each community group may make more than one application, but we anticipate that this fund may be oversubscribed so early engagement is advised.

This fund has been established in addition to the previous financial commitments made by Muirhall Energy.

If you would like to make an application for resources from this additional investment fund, please find attached a copy of the IIF application form. If you are unable to download the form, please request a hard copy by phoning **01501 785088** and one will be sent out to you. Please complete the application form and return it by email to db@muirhallenergy.co.uk or by post to Debbie Bridges, Communities Coordinator, Muirhall Energy, Muirhall, Auchengray, Carnwath ML11 8LL.

We hope that you will find this information helpful, and we very much look forward to supporting the community's aspirations going forward.

Your sincerely,

Alastair Yule
Director of Development
